THE GIANT CAMP

Made in America

The GIANT Camp was designed by our awesome friend who was oversees serving our Country. He needed a place to live as he moved from base to base. He wanted a separate bedroom which gave us extra support to span the longer roof line. He also added bunks so his niece could come visit. With taller walls and a side entry door, this camp has a very comfortable feel.
There are many possibilities and options available for a bigger camp or toy hauler. This camp is great for long term or permanent living but still mobile enough to travel the Country.
